

Help Us Find Olivia & Sophia's Match!

JOINING THE STEM CELL REGISTRY IS JUST A SIMPLE CHEEK SWAB AND ONLY 1 IN 430 ARE EVER CALLED TO BE A MATCH! YOU COULD LITERALLY BE THEIR HERO!

Meet Olivia & Sophia

Olivia and Sophia were diagnosed with Diamond Blackfan Anemia at 3 months of age. They require blood transfusions every 2.5 weeks for survival. Their treatment options are changing, and in order to cure Olivia and Sophia we need to find a stem cell match. Being they're identical twins, we need to find two!
